INTEREST CENTERS ON PASS MUSICAL FESTIVAL

The district covered by the Crow's Nest Pass Musical Festival extends from Cranbrook-Kimberley to Macleod, and from all points we learn that greater interest than usual is being manifested this year.

The festival is to be held in Blairmore, on Thursday, Friday and Saturday, October 26-27-28. Entries continue to come in in large numbers, and prospects are that difficulty may be experienced in cramming the entire program into a three-day period.

From Cranbrook we learn that several meetings have been held and largely attended. Plans for the festival has been the main topic for discussion. At one of these meetings, guests included F. M. MacPherson, M.L.A., and Mrs. MacPherson, Cranbrook; Mr. and Mrs. J. E. Upton, Blairmore; H. Abbott, George McIntyre and E. Nesbitt, Kimberley; D. Morgan, A. E. Turner, William Raven and William Burton, Cranbrook. The unanimous opinion of this meeting was that every effort should be made to have a good representation at Blairmore, in view of the splendid support the East of Kootenay festival has in the past received from the lower Crow's Nest Pass. Mrs. MacPherson, H. Hinton, E. W. Sjodin and H. J. Collier were appointed a committee to arrange for transportation and other matters.

From present indications, the Cranbrook city orchestra, which won the shield at Cranbrook last spring, will attend, as well as some of the choirs from Cranbrook and Kimberley, or probably a combined choir, made up of members of the different choirs.

The adjudicator at the Blairmore festival will be Mr. Burton L. Kurr, who was adjudicator at the Cranbrook festival in 1922.

HYSSOP WINS BOXING BOUT

Quite a number of boxing fans from Hillcrest, Bellevue and Blairmore took in the boxing tournament at Coleman on Saturday night last, when Duke Hyssop, of Lethbridge, redeemed his previous loss against Murdo Morrison, of Kimberley, in a bout that went the full ten rounds.

An excellent boxing card all through was staged, and it is interesting to note that there was not a knockout, although Jimmy Stanmore, who was kayoed a few weeks ago by our own Jimmy Burrell, came very near taking the count on several occasions, while endeavoring to stem the onslaughts of Stewart, of Marysville, B.C. This bout was awarded Stewart, who later challenged Angus Morrison to box, probably on Thanksgiving Day.

Other bouts included Angus Morrison and Scotty Campbell of Kimberley and Lethbridge, respectively, in which Angus was awarded the decision on points; and Rees, of Hillcrest, and White, of Cranbrook, two featherweights, who put up the finest exhibition of the night. Both boys slugged well, and were greeted continually by cheers from the audience.

In the main feature, Morrison did the forcing practically all through, but was sent wobbling on several occasions by Hyssop, who remained cool throughout. In the last two rounds, Hyssop unleashed a terrific attack that sent Morrison to his knees quite frequently. Hyssop's win was quite decisive.

We understand that plans are already under way for another card, to be staged likely around Thanksgiving Day.

The attendance Saturday night, although large, was not sufficient to make the affair worth while. Quite a number of ladies were present, probably taking points on how to go

DEMAND RELEASE OF PRISONERS

(From The Lethbridge Herald)
The Blairmore Local No. 1 of the Mine Workers' Union of Canada passed a resolution at their meeting last Sunday demanding the release of the fourteen Calgary strikers who were given jail terms and suspended sentences for the part they took in the strike of the Calgary relief workers last spring.

The resolution is to be forwarded to the Hon. Hugh Guthrie, minister of justice at Ottawa, and J. F. Lyburn, attorney-general for the province of Alberta.

The resolution, signed by the president and secretary of the local union, reads as follows:
The Hon. Hugh Guthrie, Minister of Justice, Ottawa, Ontario.
The Hon. J. F. Lyburn, Attorney-General, Edmonton, Alberta.
Gentlemen:

Whereas, the Central Defence Committee of Workers' Organizations is appealing against the unjustified conviction of the fourteen Calgary relief strikers, and the unwarranted vindictiveness of Judge Boyle in the Supreme Court of Alberta when he disregarded the verdict of the jury—a verdict tantamount to one of "not guilty" as it declared that the men charged with unlawful assembly were not responsible for any disturbance, and

Whereas, Judge Boyle further manifested extreme bias when he also ignored the jury's recommendation for the greatest possible clemency and sorted out militant workers, sentencing them as follows:

- H. Murphy, one year.
- P. Lennihan, one year.
- S. Coray, one year.
- C. McIntyre, six months.
- C. Sandstrom, six months.
- A. Gaudy, six months.
- E. Paole, six months.
- C. Wahl, six months.
- C. Retschlag, six months.
- F. Nutt, one year suspended sentence.
- C. Kilcup, one year suspended sentence.
- R. Squires, one year suspended sentence.
- T. Bitterridge, one year suspended sentence.

THEREFORE BE IT RESOLVED, that this meeting of Blairmore Local No. 1, Mine Workers' Union of Canada, held at Blairmore on the 24th day of September, 1933, vigorously protests against the frame-up of these active workers in the labor movement and demands their immediate and unconditional release.

(Signed)
OLE M. OLSON,
Chairman.
J. KRKOSKY, Jr.,
Secretary.

BLAIRMORE PUBLIC LIBRARY

Books being placed on the shelves this week are:

"The Man From Glangarry," Ralph Connor; "Private Post," Harold Peat; "The Wedding Song," Ethel Watts Mumford; "Points of Honor," Thomas Boyd; "Pauline," Baroness de Knott; "The Call of the Horizon," Claire D. Pollexfen; "The Splendid Spur," Arthur Miller-Couch.

The library hours are Tuesdays, Thursdays and Saturdays from 7 to 9 p.m. The fees are \$1.00 for residents and \$2.00 for non-residents per year.

Rumor has it that, after reading interesting news in the Edmonton and Calgary papers during the week the seven sisters, near Crow's Nest have wired to Ottawa for protection.

about slugging their hubbies.

The Coleman band was present, and rendered enlivening airs between bouts. The thanks of all are extended to the handmen for their services.

THANKSGIVING DAY RAILWAY EXCURSIONS

Winnipeg, Man., Sept. 26.—Reduced fares will be in effect between all stations in Canada for Thanksgiving Day week-end, and it was announced recently by the Canadian railways. The reductions will provide low fares for up to four-day trips. Tickets at the rate of one and one-quarter times the regular first-class one-way fare, good for the going journey from noon on Friday, October 6, to noon on Monday, October 9. Return portions of these tickets will be good on trains leaving not later than midnight on Tuesday, October 10. In addition to the long week-end tickets, the Canadian railways have also arranged one-day trip tickets for both Sunday, October 8, and Monday, October 9, at the regular one-way fare for the return trip. These tickets will be good going any time after 1 a.m., either Sunday or Monday, and good for the return on trains reaching the starting point not later than midnight the same day. Week-end tickets will also be good between Canadian points and certain stations in the United States.

The Furthest liner Nova Scotia was the first to arrive at Liverpool with a cargo of 15,000 barrels of Nova Scotia apples. In the same week, four other steamers were due to arrive at England ports with apples.

Men Make The State

Picking up a copy of the Moose Jaw Times the other day, the writer's attention was drawn to an article entitled "Men Make Cities" which opened by quoting the following inspirational lines of an unknown poet taken from the September issue of The Rotarian:

Cities are what men make them,
What men demand they shall be;
Slothful, sloven, and sleeping,
Progressive, beautiful, free.
If the hearts of the builders are noble,
In one with the day and the need,
They will build into grandeur and greatness,
For so it was decreed.

These lines, it is stated, were inspired by the achievement of Atchison, Kansas, as told by Ed. W. Howe, editor of the Atchison Daily Globe. Atchison is one of the smaller cities, but in twelve years it has evolved from a bankrupt, tax-broke city—"slothful, sloven and sleeping,"—into one that is "progressive, beautiful, free," with its bonded debt cut 70 per cent, and even while this fine record was being made its tax rate was reduced by 35 per cent.

"How was it done? In 1920 a group of citizens, noting the seriousness of the situation, started a movement to save the city, a new idea took hold of the administration, expenses were cut, and plans formulated to enable the taxpayers to handle the load and reduce the bonded debt and the overhead, and the creditable record was not interrupted through three years of the hardest times ever known, largely because lost courage and confidence was restored.

The Rotarian magazine tells the story in an editorial challenge to Rotarians in every city to be up and doing for the welfare of their home town,—to study its problems and to act. The Moose Jaw Times applies it directly to its own city and declares the challenge comes at this time not only to Rotarians but to every member of every service club of Moose Jaw.

The writer of this column in passing the story along would make bold to still further enlarge the field of its application from city or town to the citizenship of every community, large or small, because it is just as true that men,—and women,—make rural communities and little villages as it is that they make cities. It is also true that in these days our rural communities, hamlets and villages are confronted with problems, which, considering their population and resources, are just as heavy and serious as those of the larger cities,—perhaps even more so.

Furthermore, because of the very nature and extent of the world-wide depression which has developed, all communities, large and small, find themselves much in the same position. One cannot in their emergency turn to another because all are adversely affected, and while the willingness to assist may be there the ability to do so is lacking. So communities are thrown back on their resources to a greater extent than formerly.

Again, this has resulted in much purely voluntary work by individuals and organizations being restricted, leading to both individuals and communities turning to and relying upon the State to take over and assume their problems. The net result is a weakening of the morale of the individual, a loss of courage and confidence, the development of habits of slothfulness, and a deterioration of initiative and enterprise. Instead of men adhering to the truth that they make cities and nations, thousands are adopting the false theory that cities and nations make men, and that, instead of it being the duty and responsibility of men to order their lives and make their communities, it is the duty and responsibility of the State to order the lives and control the actions and destinies of the individual, thus reversing the order of the citizens controlling and directing the State.

Observant men and women are more and more coming to the view that the time has arrived to call a halt to this increasing reliance upon the State, and to renewed belief in the truth that, like the citizens of Atchison, Kansas, they must save themselves and their city by action on their own part; that instead of allowing their difficulties and problems to swamp and overcome them, they must overcome their problems and surmount their difficulties. It can be done. It has been done times without number by individuals and communities in the past.

Indeed, if it is not done both the individual and the community, large or small, faces ultimate disaster. The individual will find himself submerged and his individuality largely gone, while the community will end up in complete bankruptcy and the loss of its local freedom and autonomy.

On the other hand, if the men,—and women,—of a community, be it a small village or a large city, bestir themselves, face and study their problems, and proceed to grapple with them one by one, they will be surprised how much they can accomplish. It will mean the abandonment of existing policies of drifting with the adverse tides. It will mean the lifting off of this expenditure and the use of its local freedom and autonomy.

In a word, it means a return to the proper and sound conception,—that men make cities, not cities make men. And in using the term cities the application is to all organized communities whether rural or urban, large or small.

Dairy For Prince Albert

Believing Prince Albert is headed for better times, F. R. Glass, of Kerrobert, announced his plans to establish a dairy there for the retail distribution of pasteurized milk and cream. He has acquired 1,300 acres near the city and built a barn to house 40 Holstein cattle he intends to bring from Kerrobert, where he now operates a dairy.

Bath Tubs From England

Most of the imported bathtubs and bath tubs which are used in Canada come from the United Kingdom. During the past 12 months the value of these was \$101,000, compared with \$24,000 from the United States, according to an Ottawa bulletin. The house to Holstein cattle he intends to bring from Kerrobert, where he now operates a dairy.

Opusculi are becoming so numerous in New Zealand that they are a menace.

Chicago school teachers can't see that a century of progress has done much or them.

Any Looseness of the Bowels Is Always Dangerous

When the bowels become loose and diarrhoea, dysentery, summer complaint and other bowel troubles set in, immediate attention should be given and the discharges checked before they become serious.

To check these unnatural discharges there is a remedy in Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 88 years. It is rapid, reliable and effective in its action. A few doses is generally all that is required to give relief.

Get it at your drug or general store; put up only by The T. Millburn Co., Limited, Toronto, Ont.

British Railway Regulation

No-Smoking Order in Compartments To Be Enforced

In future all passenger coaches on the London, Midland and Scottish Railway will bear a distinctive label, "smoking" or "non-smoking." About 19,000 vehicles, with a seating capacity of more than 1,000,000 will have to be dealt with. Probably a year will elapse before the change-over is complete.

"We have had many complaints," said an official, "about people smoking in non-smoking compartments. They take the view that as smoking is not definitely forbidden they may smoke if they wish to do so. When the new labels are affixed on one will be allowed to smoke in a non-smoking compartment, even if other passengers say they have no objection. Smoking is allowed in 75 per cent of the coaches and it is not proposed to alter that proportion."

Other railway lines in the United Kingdom have carriages labelled in various ways, meant to indicate they are either for smokers or non-smokers.

CAST OFF UGLY FAT

Woman Loses 28 lbs. in 3 Months

"Three months ago," a woman writes, "I was persuaded to try Kruschen Salts to reduce my weight, which was 222 lbs. I had tried everything else but to no avail. Now I know that Kruschen Salts are different. In three weeks I lost 25 lbs. I felt five years younger. I really must say I feel a different woman. I have now lost 28 lbs. to date."

(Mrs.) S.G.B.

If you are overweight take one half-teaspoonful of Kruschen Salts in a glass of hot water before breakfast every morning. There will be no rapid or alarming loss of weight, but just a steady decrease of that fatty fat which is as unhealthy as it is ugly. Kruschen is a scientific blend of six mineral salts found in the waters of those European spas that have been used by generations of overwrought people to reduce weight.

Rising Tide Of Fascism

Warning Is Sounded By Secretary Of Workers' League

Warning against the "rising tide of Fascism," as exemplified by the Blue Shirts of Canada, was sounded by J. C. Wilson, of Winnipeg, at the Secretary of the Workers' League, at an open meeting of returned soldiers at Windsor, Ont.

"I understand the slogan of the Blue Shirts is 'Join us and get a job,' but that does not amount to a hill of beans," Mr. Wilson said. "In Winnipeg we formed the Old Continentals and had the same slogan. The only job offered us was police duty during the strike, a job now filled by 62 members of the Canadian Legion."

"There is no job for them except as storm troops for a Fascist government. That is their role, the same role as Fascists in Vancouver, strong-arm squads in Winnipeg, and Steel Helms of Montreal."

"The time has come when you, as your economic needs, as the only effusions, must unite and fight for your economic needs as the only effective weapon to combat the rising tide of Fascism and possible war in six months."

Pains After Eating? Try This!

Pains after eating are generally due to an excess of acid in the stomach that forms gas and causes belching, heart burn, bloating, sour stomach and indigestion. Bismarck Magnesia taken after meals will give such quick and pleasing relief you will be surprised. Any druggist will tell you ordinary Bismarck Magnesia is fine for sour acid stomach conditions. It should be in every home. It works.

Tomb Of Viking Chieftain

Discover Grave Of Warrior Buried 1,000 Years Ago

The tomb of a Viking chieftain, buried more than 1,000 years ago, was recently found at Laangtor in central Sweden. The find clearly showed the warrior was of high rank and furnished an interesting example of the burying customs of his day. He had been interred with full armor and with a fine sword, evidently made in the south of England.

The sword hilt was decorated with silver ornaments, on one of which some magic runes had been engraved.

Claims Fastest Plane

That his plane is faster than any other passenger-carrying type is the claim of the inventor of a new machine in Italy, having the body in a cylindrical enclosure, through which currents of air pass to supply the propelling power.

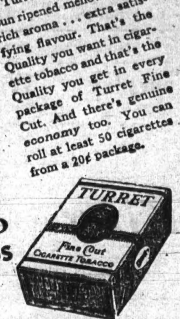

Scotland's potato crop this year was so large that the digging gave work to hundreds of unemployed.

Had Wet Landing

Passenger On Amphibian Plane Stepped Out Into Water

The pilot of a big amphibian plane coming toward New York one night recently found himself in a nice fog which he thought would be pretty pure later. According to instructions, he landed at an outlying city and suggested that his passengers continue by rail. They all did, except one gentleman, who said he was in a mighty hurry and would take a chance if the plane was going on. The pilot was going on, and let him stay. The fog got worse, but the passenger was untroubled. Two or three times the pilot and co-pilot looked back and found him deep in a magnifying glass. He read right on until the plane had come down and stopped. Then, to the pilot's and the co-pilot's horror, he took up his suitcase, opened the door, and jumped nimbly out. It would have been all right but for the fact that, in view of the weather, the pilot had brought the amphibian down on the water instead of the land. They flashed the gentleman out and dried him off and he hurried to town.—New York.

Trying Something New

Rolling Across Atlantic In "Gyroboat" Is Plan Of Two Italians

Two Italians may attempt to cross the Atlantic in a barrel-like craft propelled solely by rolling. They are Captain M. Caminiti and his mechanic, Signor Rametta. The vessel, called a "Gyroboat," is a kind of buoy in the shape of a barrel with a revolving cable which gives it its speed. It is completely closed and will hold several people. According to word from Palermo the inventors completed their first trial by crossing the Straits of Messina in less than an hour. They made their "ship" roll simply by their own movements inside the barrel. The inventors intend to propel their vessel down the coast to Catania and there to stay while they perfect it. They claim they will be able to cross the Atlantic in it at "stupendous speed."

Forsakes Northern Country

Trapper Has Lived In Sub-Arctic For Many Years

The far north country is a good place for a man with a family, who is "getting up" in years, to get out of. This at least is the opinion of T. W. "Flynn" Harris, and he should know, for he's been wandering around up there since 1881.

Trapper, trapper, North West Mounted Policeman, wood-chopper and Indian Agent, for 20 years, "Flynn" has had his home in the sub-Arctic. Now he is in Edmonton, retired by the government from his position as Indian Agent, and he's going to Cold Lake to settle down.

Belgium has only 155,000 unemployed.

South Shields, England, is building 142 houses for the aged.

Investigated Northern Lights

Scientists Have Spent Fifteen Months At Fort Rae

Aurora borealis flash across the northern sky some 60 miles above the earth, according to calculations made by members of the British polar year expedition who arrived at Edmonton by aeroplane after 15 months spent at Fort Rae, North West Territories, studying weather conditions in the far north.

"Five members of the party, A. Stephenson, who was formerly with the Wilkins expedition in Greenland, P. A. Sheperd, R. Morgans, W. A. Grinstead and J. E. Kennedy arrived in a MacKenzie Airways aeroplane piloted by Matt Berry, Dr. J. M. Stagg, leader of the expedition, returned by river boat with the valuable instruments used in investigations.

Results of their observations will not be revealed until the voluminous data on meteorology, terrestrial magnetism and atmospheric electricity as analyzed after their return to England, the scientists stated.

"We simply made the observations and collected the data," Mr. Grinstead explained, "The results of our work will come out later."

In all, 4,000 double photographs of the northern lights were taken by means of cameras on either end of a telegraphic line placed 20 miles apart. Cameras and instruments were focused on a star and the photographs taken instantaneously. Thus by means of triangulation the distance and action of the northern lights could be estimated.

A Rare Spectacle

Aunt Of, Cavalry Subaltern Liked Field Of Polo

The young cavalry subaltern was showing an elderly aunt round the barracks. The old lady became confused by many references to military technicalities, but she gamely determined to appear to take an appreciative interest in everything shown to her. "And this," said the sub, pointing to the distant landscape, "is our polo field." "Ah, yes," said the old lady, peering through her glasses, "I often think there's no more beautiful sight than a field of waving polo." Sporting and Dramatic News, London.

CREAMED CELERY AND GREEN PEPPER

One and half cups celery (cut in one-inch pieces); 1 green pepper; 3 tablespoons butter; 3 tablespoons flour; ½ teaspoon salt; ½ teaspoon pepper; ½ cup evaporated milk; ½ cup water; 6 slices toast.

Cook celery and green pepper in water with salted green pepper. Melt butter in double boiler. Add flour and seasonings. Blend thoroughly. Add gradually evaporated milk and water, stirring constantly until mixture thickens. Cover and cook ten minutes longer in double boiler, stirring occasionally. Add celery and green pepper. Serve on toast if desired. Serves six.

A Profitable Proposition

One rural subscriber who was renewing his subscription the other day to the Pictou, Nova Scotia Advocate, pointed out that he would not miss one issue of The Advocate henceforth as a result of a recent experience. "Why," said he, "if I had not been getting your paper I'd have missed a sale the other day at which I made several dollars on the purchase of a cow. I made enough to pay for the paper for two or three years in the one deal."

Better Conditions Due To General Upswing

Improved Business In Canada Not Credited Wholly To N.R.A.

Figures issued by the Dominion Bureau of Statistics indicate business conditions in Canada have progressively improved since March of this year, before the National Recovery Act was passed in the United States.

"Although officials of the Canadian Manufacturers' Association would not express an opinion as to whether the increase in Canada's export trade as reported from the Department of National Revenue at Ottawa, was due to influence of the N.R.A., Dominion statistics indicate it was not a major influence.

Physical volume of business, industrial production, manufacturing in the Dominion, along with export trade started on an upward trend in March, improving steadily in following months. Canada's trade "flow" was reached in January-February.

"Although some credit is given the National Recovery Act by manufacturers at Toronto, for improved conditions, owing to the influence of conditions in America on Canadian trade, it is considered improvement is principally due to a general upswing in world conditions.

More Than One China

Not Counting Manchuria Writer States There Are At Least Five

O. M. Green in an article in the Nineteenth Century and After says: everyone returning from the Far East is familiar with the famous question, "Well, and when is China due to settle down?" The only possible answer is, "Which China do you mean?" Not counting Manchuria, there are at least five Chinas—Canton in the South, Nanking in the Centre; the North (in a generally fluid state very difficult to define); the huge western province of Szechuan and the Communists.

A solution of bicarbonate of soda will make an excellent white ink.

FARM CREDIT CORPORATION NEEDED FOR WEST

Ottawa, Ont.—The setting up of an agricultural credit corporation which would operate on a non-profit basis is suggested in a brief presented to the royal commission on banking by a special western interprovincial committee appointed by premiers of the three prairie provinces.

The capital structure of this corporation would be made up by Dominion and provincial governments, together with some contribution from the borrower. Credit from it should be made available at the lowest cost as a matter of public policy.

The Dominion government should adopt measures designed to raise the level of agricultural prices "to a point which would restore the farm income," the committee asserts.

International co-operation to that end should be undertaken. Also, some solution of the debt problem in western Canada must be found if people are not to be driven from the farms. With this end in view the committee suggests amendments to the Bankruptcy Act, "so as to provide facilities by which small farmers' debts may be secured cheaply and quickly a composition and extension of their debts, secured and unsecured, which will be binding on all their creditors when approved by the appropriate court."

It is also suggested that, in cases where bankruptcy proceedings can be avoided, power be given to the debt adjustment boards of the respective provinces to enable compromises and adjustments of farm debts.

Evidence submitted to the commission indicated "widespread dissatisfaction" with regard to interest charges made by the banks, and also with their practice of making notes repayable in three months, the committee states. The banks should be urged, it is suggested, "to loan to borrowers on terms of repayment likely to coincide with the realization from the venture for which the money was borrowed. The Bank Act should be amended, making it clear that the banks cannot charge a rate of interest in excess of seven per cent. and impose penalties if such is done."

Another suggestion embodied in the brief is that the banks be empowered and encouraged to lend to farmers on the security of threshed grain on the farm. If necessary, amendments to the Bank Act which would permit this should be introduced. The risks of fire and theft should, it is stated, be covered by insurance so that the banks will have maximum security on the grain.

The committee urges that loans for unemployment and drought relief should be made available at a rate not exceeding one per cent. over the discount rate of the finance department.

Dealing with the question of exchange the brief asserts that the prairie governments have paid \$5,409,124 in exchange premiums on their bonded debts during the past two and a half years. It is estimated that 60 per cent. of the sum so paid was collected by Canadian holders of the bonds.

"We suggest that steps should be taken to prevent Canadian bondholders from demanding payment in other than Canadian funds, and that the buying and selling of foreign exchange be under the control of a central bank," the submission concludes.

Record Price For Beef

Springfield, Mass.—A new record price for beef steak on the hoof was paid at the baby beef auction at the Eastern States exposition, when the grand champion owned by Theresa Grassi, of Pine Plains, N.Y., brought \$11.15 per pound at auction. This compares with a previous record of \$9.30 paid at the East St. Louis Fair last year.

Blame For Reichstag Blaze

London, Eng.—An international legal commission which has been holding an inquiry into the Berlin Reichstag fire last February, found that grave grounds existed for suspecting that the building was set afire by the Nazis rather than by the Communists whom the German Government has accused.

Studying Tax Problems

Winnipeg, Man.—J. A. Byng, commissioner of income taxation for Saskatchewan, was in Winnipeg to consult with D. C. Stewart, Manitoba administrator of income taxation, concerning means of eliminating overlapping taxation as respects individuals subject to taxation in both provinces.

W. N. U. 1013

Favors Tariff Cut

Controlled Inflation And Lower Tariffs Favored By U.S. Official

Chicago.—Secretary of Agriculture Henry Wallace told the United States Grain Dealers' Association that he still favors controlled inflation.

Along with this he criticized high tariff psychology and warned that attempts to fix prices "without control of production is doomed to failure."

"Most of the price fixers are also inflationists," he said. "If the purchasing power of farm products does not improve during the next three months, the price fixers and inflationists will have great power in congress this winter and there will be passed legislation which will make the Agricultural Adjustment Act seem extraordinarily conservative."

Secretary Wallace said he looked for decidedly higher agricultural prices within a few months, but that he felt the improvement might come to a sad end if "we are not prepared to meet the peril produced by the following forces." He said these were:

"First, America is a creditor nation to the tune of \$1,000,000,000 annually, but, as a nation, she has a debtor psychology." Second, the American people are still essentially high tariff in their attitude. Third, the American people are disillusioned about lending money abroad, and it will be difficult to float foreign loans in their present temper.

"These three forces mean that for the time being, our people are profoundly nationalistic, and that as long as they are operating on this basis, we should go at it wholeheartedly to put our internal economy on a nationalistic basis, reducing our crop land acreage by 40,000,000 acres."

"If we persist in our high tariff policy or even in a half-way modification of it, and at the same time collect in full the money which is owed us abroad, and refuse to lend money abroad, it will take superhuman efforts on the part of the agricultural adjustment administration year after year to keep down our acreage to a point which will afford a living price to American farmers."

Empire News

Clearing House For Empire News Is Suggestion Made

Toronto, Ont.—National press associations in each of the Dominions freely exchanging news of the empire were held up as a prospect to hope for in a committee of the British Commonwealth Relations Conference. It was suggested if South Africa, Australia and India could set up co-operative associations at in Canada and New Zealand, the road would be prepared for the establishment in London of a clearing-house for this empire news, in which the press of the United Kingdom would be invited to participate.

Kitsilano Boys' Band

Have Accepted Invitation To Play At Crystal Palace, London

Vancouver, B.C.—Kitsilano Boys' Band, which won honors across continent, has accepted an invitation to play next summer in the Crystal Palace, London, England, according to the band's calendar for 1934.

The youthful musicians took the Pacific northwest and British Columbia honors in 1931-32-33, the Canadian championship in the Canadian National exhibition in 1932 and the world's championship in their class at a Century of Progress Fair in Chicago recently.

Warning Is Given

Heavy Penalty For Melting Down Gold Coins

Ottawa, Ont.—A warning to those who might be tempted to melt down gold coin in order to secure the high price now prevailing for the raw metal, is contained in a statement issued by the Department of Finance.

Section 25 of the Currency Act provides that the penalty for illegally dealing with such gold coin shall be a fine not exceeding \$250, or imprisonment for not more than 12 months, or both fine and imprisonment.

American Section At Geneva

Geneva, Switzerland.—The American Minister to Switzerland, Hugh R. Wilson, practically living in Geneva, and with five members of the consular staff headed by Franklin B. Gilbert, devoting themselves exclusively to League of Nations questions, the league decided to inaugurate a special American section.

Relief Camps

Edmonton, Alberta.—Officials of the Department of Defence at Ottawa are conferring with Alberta Government officials on the opening of single jobless relief camps in this province, to see the defence department's supervision.

No More Free Gas

Say Joy Riders From Alberta Obtaining Free Gas From B.C.

Victoria, B.C.—Joy riders from Alberta have been obtaining free gasoline in British Columbia, according to Hon. W. M. Dennis, British Columbia Minister of Labor, just returned from a trip to the Okanagan and Kootenay districts.

Mr. Dennis said families were driving across the inter-provincial line in old cars and asking for free meals and a supply of gas to move onward. Most municipal officials found it cheaper to speed them on their way with gas instead of harboring them.

The minister said word apparently spread to the prairies and increased the flow of ancient cars from Alberta into the southern section of the province.

Mr. Dennis issued orders no more free gas be supplied to prairie itinerant.

Growth Of Empire Trade

Exports For August Of Very Encouraging Nature

Ottawa, Ont.—Exports to British Empire countries in August, exclusive of those to the United Kingdom, totalled in value \$4,074,000. This was an increase of \$622,000 over August last year and the highest since November, 1931, when the total was \$4,372,097, according to the Dominion Bureau of Statistics.

The largest export last month was to Australia, valued at \$966,000, an increase of \$101,000, in which lumber from British Columbia played a conspicuous part.

Exports to the Irish Free State, Newfoundland, Bermuda, the British West Indies, the British colonies of Africa, British Guiana, Hong Kong, Palestine and British Oceania, all showed gains last month.

WIDER POWERS FOR DOLLFUSS ARE INDICATED

Vienna.—It was authoritatively announced that Chancellor Dollfuss was taking over complete executive control of Austrian affairs, including the army, the police and the gendarmes, in a new "cabinet of personalities."

It was explained the new Dollfuss cabinet will be formed on the basis of elimination of all political parties. Cabinet members who belong to parties will be shelved, and parliament will lay down mandates.

It was not as yet definitely disclosed whether the Heimwehr (home guard) will remain a part of the political picture. A new cabinet list, however, was expected.

Shortly after the announcement a Christian-Social meeting under the chairmanship of Karl Vaugin, minister of the army, and an ironic coincidence—Princess Starhemberg, mother of the Heimwehr leader, wound up by issuing a communique to the effect that the party was solidly behind Dollfuss and "the Christian cooperative authority state."

This was exactly the same phrase used by Dollfuss on September 11, when he set forth his conception of the new Austrian state, which precipitated a wordy battle between Prince Starhemberg and Vice-Chancellor Winkler.

CABINET TROUBLE MAY UPSET DOLLFUSS

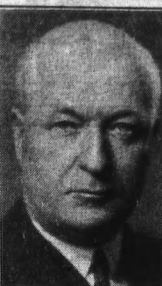

Paris, France.—United disarmament front of Great Britain, United States, France and Italy, based on the French plan for armaments control, was believed by French officials to be near.

While British quarters were reticent pending the outcome of a cabinet meeting at London, French officials maintained the points of view of the four powers were close enough to enable an accord. This, it was believed, would include the control scheme, sanctions against any nation violating a disarmament agreement, and limitations of armies and guns.

Edmonton, Alberta.—Adopted by his aunt and uncle, Mr. and Mrs. R. A. Blench of Edmonton, eight-year-old Walter Houghton, travelled alone from Cape Town, South Africa, to the Alberta capital after his mother and father had died. The boy said he enjoyed the 13,000 mile trip and is eager to see his first snowfall.

Dr. Engelbert Dollfuss, Austria's "pocket" Chancellor, has been waging a strong fight against Nazi encroachment in Austria, and now reports from Vienna state the diminutive leader is having troubles in his Cabinet. Here we see the Austrian Chancellor (right), a packet of concentrated dynamite, standing beside Baron Franchetstein, one of his right-hand men.

NEW DEPUTY MINISTER

Dr. R. E. Wodehouse, Executive Secretary of the Canadian Tuberculosis Association, who has just been appointed Deputy Minister of Pensions and National Health for the Dominion.

Northern Air Route

Winnipeg Expected To Be In Important Position In Trans-Atlantic Service

Ottawa, Ont.—While it is too soon to predict the role that Winnipeg will play, it is learned here on official authority that negotiations for a trans-Atlantic air service are now rapidly reaching a final stage. The three countries that will co-operate in this venture are the United States, Canada and Great Britain and the route will be north across Labrador or Hudson Bay to Greenland, thence to Iceland and to the British Isles.

The negotiations are now proceeding at London, where the Canadian government and, probably, the Canadian Airways, are represented. The United States participant is the Pan-American Airways, Limited, and the British negotiator is the British Airways.

An announcement of the plans for an early trans-Atlantic service is expected within six weeks.

It is not known here if the plans will call for a branch line from Chicago to Winnipeg and thence north-east to tap the main line, but it is said that this possibility is being considered.

Railway Fares

Scaling Down In Prices Seen, And Excursions May Be Permanent Plan

Calgary, Alberta.—Rumored consideration of a scaling down of railway fares in United States is subject to close observation by Canadian railway executives. E. W. Beatty, president of the Canadian Pacific Railway, said here.

"The question of lower fares is a matter of development and depends on future traffic," Mr. Beatty stated. "But I believe, judging by the manner in which they have been patronized in the past few months, excursions have come to stay."

Boy Takes Long Journey

Edmonton, Alberta.—Adopted by his aunt and uncle, Mr. and Mrs. R. A. Blench of Edmonton, eight-year-old Walter Houghton, travelled alone from Cape Town, South Africa, to the Alberta capital after his mother and father had died. The boy said he enjoyed the 13,000 mile trip and is eager to see his first snowfall.

Study Cosmic Rays

U.S. Army Plane Carries Instruments Four Miles Above Earth

Riverside, Calif.—Using army bombing planes to carry their sensitive instruments nearly four miles above the earth, Dr. Robert Millikan, noted Pasadena scientist, and his assistant, Dr. Victor Neher, have resumed their efforts to learn more about the cosmic ray.

An army pilot, garbed in 25 pounds of winter flying clothes and equipped with oxygen breathing facilities which he is compelled to use about 15,000 feet, flew the instruments to 19,000 feet recently.

The plane remained at that altitude an hour and 15 minutes and at 15,000 feet for a similar period. Dr. Neher said he plans several flights daily for two weeks.

Similar tests were conducted on behalf of Dr. Millikan in Northern Manitoba in 1932. On that occasion a Royal Canadian Air Force plane made altitude flights after being fitted out as an aerial laboratory.

Find-Free Gold

One Ore Body Is Discovered In Stevenson Lake Area

The Pas, Man.—Predictions made last year that the next big gold finds would be recorded at Oxford Lake and vicinity have been borne out by a number of stakings in the Stevenson Lake area about midway between Oxford House and Island Lake, according to word received here.

Among those in the field is James R. Crideman, of the Crideman Mines, Central Manitoba, and well known in Ontario and Quebec.

Free gold is spattered over a wide area. Assays run up to \$120 per ton. Claims extend three miles along Stevenson Lake shore.

Berni Balchen In Hospital

National Flyer Has Operation For Appendicitis

Cape Town, Union of South Africa.—Berni Balchen, the noted flyer, well known in Canada, underwent an appendicitis operation described as completely successful at his whereabouts.

The mystery of his whereabouts which caused Sir Hubert Wilkins and his shipmates some hours of inquiry was cleared up by a statement that when he left the ship he met a friend taking dinner at a hotel. It was explained he spent the evening in his friend's company and returned shortly before midnight, going to bed quite ignorant of the excitement created by his "disappearance."

FOUR NATIONS MAY AGREE ON ARMS CONTROL

London, Eng.—Broadly outlined, the aims of the British government on the disarmament question are understood to be the application of the principle of armament limitation to all nations and the avoidance of new competition in armaments.

At a special meeting the cabinet reviewed the situation and heard the report of Captain Anthony Eden, under-secretary for Foreign Affairs. The result of the cabinet's deliberations, the Canadian Press was authoritatively informed, was to leave the ministers firm in their contention that the adoption of a disarmament pact was imperative.

Paris, France.—United disarmament front of Great Britain, United States, France and Italy, based on the French plan for armaments control, was believed by French officials to be near.

While British quarters were reticent pending the outcome of a cabinet meeting at London, French officials maintained the points of view of the four powers were close enough to enable an accord. This, it was believed, would include the control scheme, sanctions against any nation violating a disarmament agreement, and limitations of armies and guns.

Would Provide Work

Big Reconstruction Project Advocated In Winnipeg

Winnipeg, Man.—A city home reconstruction project, which would provide work for thousands of Winnipeg building tradesmen, is advocated by the civic town planning and zoning board and the Winnipeg building trade council.

The project was discussed at a conference here, and under the plan the Dominion and provincial governments would be asked to finance a scheme for remodeling old, run-down homes in some of the poorer districts of Winnipeg.

TENSION HIGH AT OPENING OF LEAGUE PARLEY

Geneva, Switzerland.—The state of political tension existing in Europe was exemplified as Swiss detectives from many cities began mobilizing to reinforce Geneva police on the eve of the League of Nations assembly and council meetings and the disarmament conference.

The purpose was said to be primarily to protect the lives of German delegates.

Opening of the conference begins a period of intense activity in the league. That the very peace of Europe is the stake of negotiations about to commence was the concensus of opinion.

On one side are France and allied nations apparently ready to limit but not to reduce armaments, at least prior to termination of the period of rigid control of existing armaments which France has proposed.

On the other side is what is called an awakened, fiercely nationalized, Hitlerized Germany, seemingly determined to insist on eventual equality of armaments and emancipation from the military restrictions of the treaty of Versailles.

At the Conference President Arthur Henderson to Berlin was understood to have been influential in an optimisticaving of prospects toward disarmament. Germany was understood to be ready to accept non-response-to-force provisions, subordinate to the definition of aggression determined upon by the league and to accept supervision and control of armaments with penalties for violations.

Canada's New Loan

Will Be Used Chiefly For Refunding Maturing Bonds

Ottawa, Ont.—The Dominion government loan will be "substantially less than \$250,000,000," according to a high official of the finance department. It will be "essentially a re-lending loan and a modest financial transaction in every sense of the word," the official added.

The date and interest rate of the new issue has not yet been fixed. Officials are confident the public will take the opportunity to convert their maturing bonds into new long-term securities at a slightly lowered interest rate.

The loan is chiefly for the purpose of refunding the \$169,000,000 worth of victory bonds maturing on November 1 and a bank loan of some \$35,000,000 maturing at the same time. The total issue will be only slightly in excess of these requirements.

May Recall Film Stars

German Members Of Hollywood May Have To Return To Germany

Hollywood, Cal.—German members of the film colony regarded with concern a report from Berlin that a move was on foot to demand their return to the fatherland to participate in "cultural rebirth," of the nation.

Maxine Dieckhoff, Deutsche Welle, Ernst Lubitsch and many other Hollywood celebrities would be affected by the order now being discussed by the Film Reichsfachschaft, the controlling motion picture organization there, it was said to be favored by Adolf Hitler.

Morphine Case

Victoria, B.C.—Sacks of dried poppy heads were stacked in the court room as material evidence as the trial of a Hindu named Bervu on a charge of possessing morphine began. Royal Canadian Mounted Police recently seized a truckload of poppy heads from city and Saanich lots and this was the first case arising out of the seizure. The case was adjourned.

Made Dangers A Trip

Edmonton, Alberta.—Four Edmonton youths have completed the treacherous 250-mile canoe trip down the Saskatchewan River and tributaries from Rocky Mountain House to this city. The dangerous waters upset their canoe once, the occupants narrowly escaping death. The canoeists are Bert Wilson, his brother, Howard, Robert Brown and Allan Bralles.

B.C. Lumber Export

Vancouver, B.C.—Export of board feet of lumber from British Columbia in August set a new high record, according to figures issued by the Pacific lumber inspection bureau. The figure was 75,432,000 feet against 73,077,000 in August, 1932, the highest previous month. In August, 1932, export only totalled 27,465,000 feet.

CANADIAN MINERALS

Montreal, Que., Sept. 26.—Among the various business indexes upon which economists base their deductions and prognostications, none occupy a more important place than base metals. Latest figures available in this respect show, comparatively, the tremendous growth which industry has made in Canada during the last decade and they also indicate the low level to which world commerce has dropped. Taking the production of copper, lead and zinc in Canada during the decade 1922 to 1932, Canada increased her production of copper 495.5%, lead 282.9% and zinc 310.1%. Lead mining in Canada is concentrated in one mine at Kimberley, British Columbia, which accounts for 96% of all the lead mined in the Dominion. Nickel, which is a product of the steel-alloy age, exemplifies the extent to which world trade has fallen. Canada exercises practically a monopoly in nickel production and, therefore, Canadian figures can be taken as a gauge in this regard. Comparing the year 1922 with 1929 there has been a decline of 72.4% in production. Comparing the 1922 with the 1931 level, production fell off nearly 54%. With world trade recovery under way, the production of copper, lead, zinc and nickel should show corresponding increases.

AN IDEAL NEWSPAPER

Occasionally it becomes the duty of a practical editor to give to the very intelligent and impractical people, who are always demanding an ideal newspaper, a very common sense reason why it will never be published.

And the reason is based on a few questions like these:

Has anybody ever seen or heard of an ideal minister?

Has anybody ever seen or heard of an ideal college professor?

Has anybody ever seen or heard of an ideal doctor?

Has anybody ever seen or heard of an ideal banker?

Has anybody ever seen or heard of an ideal lawyer?

Has anybody ever seen or heard of an ideal merchant?

We are decidedly of the opinion that a sound and emphatic "no" is the answer to each question.

Why? Because the representatives of the callings named are all human, with the usual number of virtues and faults. And editors, being human, are in the same class. Therefore when the world is peopled by angels and the newspapers controlled by archangels, we shall see the ideal newspaper, and not until then.—Boston Globe.

Pupil: "Pop, what's a traitor in politics?"

Father: "A traitor is a man who leaves our party and goes over to the other."

Pupil: "Well, then, what is a man who leaves the other party and comes over to yours?"

Father: "A convert, my boy."

The Proof

Wife: "I've just been reading an article on electricity, and it seems that before long we shall be able to get nearly everything we want by just touching a button."

Husband: "You'll never be able to get anything that way."

Wife: "Why not?"

Husband: "Because nothing on earth would make you touch a button. Look at my shirt!"

AUTO ACCIDENTS DEATHS DECREASED

Alberta has been experiencing a notable reduction in deaths from auto accidents in the past three years, according to figures just released by the federal bureau of statistics. In 1930 the province had 127 deaths, in 1931 there were 67 deaths, and in 1932 the record was 49. The latter figure compares with 50 in Nova Scotia, 49 in New Brunswick, 42 in Manitoba, 34 in Saskatchewan and 35 in British Columbia. Alberta's percentage of deaths per 10,000 motor cars registered in 1932 was 5.64 compared with 3.73 in Saskatchewan, 5.87 in Manitoba, 9.34 in British Columbia, 9.32 in Ontario, 18.77 in Quebec, 17.47 in N.W. Brunswick, 12.15 in Nova Scotia. Alberta's percentage of 5.64 compares also with the Canadian percentage of 10.01.

S. J. Hungerford, acting President of the Canadian National Railway, states that the two great Canadian railway systems are co-operating in different ways, also considering other forms of railway operating that will bring about bigger and better service to Dominion business enterprises. Mr. Hungerford said he believed that, in regard to competition of other transportation systems, that there was a field for all, including air and automobile on the highways, but that the need for regulation to their own fields of business was becoming apparent.

A few years ago, endeavoring to sell a car to a Cornish lady, Linville remarked: "Madam, if you buy this car, we will put your initials on it."

"Yes, but my husband says it's not the initial cost that matters—it's the upkeep."

Pat and Mike visited a swell cafe in London. Noticing a Welsh rabbit in the menu, they thought they'd order some to sample it. Pat delved into his serving with a fork and turning to Mike remarked: "Did you ever see or smell anything like it?" "Sure," replied Mike. "I shtepened in it once!"

Two colored privates were discussing the relative merits of their buglers.

"Why, man, dat bugler of mah regiment an' so good dat when he plays 'Pay Day' it sounds zactly lak de symphony orchestra playing 'de Rosary'."

"Hush yo' mouf, nigger. When Snowball Jones wraps his lips 'round his bugle an' plays de mess call, ah looks down at mah beans an' says: 'Strawberries, behave yo-self, you're kickin' de whipped cream out o' de dish!'"

What is a Mugwump?

"What is a mugwump?" the teacher wanted to know.

A little hand shot up: "Please, teacher, a bird."

Wondering how the child got that idea, the teacher pursued:

"Why is it called a mugwump?"

"Because it sits with its 'mug' on one side of the fence and its 'wump' on the other," asserted the child.

I would have been inclined to doubt the veracity of this anecdote of scholastic wisdom had it not been passed along to me from a former minister in the King government.

—Wilfred Eggleston, Ottawa.

Extra Tight Pants

An Irishman returned to the tailor's shop with a suit he had just bought.

"Sure now, this suit is not good at all," he cried. "The trousers are too tight!"

"Then perhaps I can alter them for you, sir," said the tailor. "Are they very tight?"

"Tight!" cried Pat. "Sure they're tighter than me skin!"

"Come, come! You must be joking, sir!" smiled the tailor.

"Well, I can sit down in me skin," said Pat, "but, begorra, that's more than I can do in these trousers, and that's a fact!"

BLAIRMORE UNITED CHURCH
Rev. Albert E. Larkie, Minister.

"Serve the Church that the Church May Serve You."

Services Sunday, October 1st, the minister in charge.
11 a.m.—SENIOR SCHOOL.
2 p.m.—RALLY DAY in Junior School.

7:30 p.m.—PUBLIC WORSHIP.
Holy Communion will be administered at this service.

UNITED CHURCH NOTES

Sunday, October 1st.—The Sacrament of the Lord's supper will be administered at the evening service at 7:30.

Wednesday, October 4th.—Sponsored by the senior C.G.L.T. group Mrs. Lyman Gurney (Enid Cole) will present a concert well worth a good crowd. Children's fancy costume dancing, songs and monologues will feature the program.

Saturday, October 7th.—The Ladies' Aid will hold a tea and sale of home cooking. We are looking for our patronage.

Tuesday, October 17th.—Grand Rally for the Pass, when Dr. E. H. Oliver, Ph. D., M.A., D.D., former Moderator of the United church of Canada, will be this year's outstanding visitor to the Pass.

ST. LUKE'S CHURCH NOTES.
Rev. A. S. Partridge, B.A., Rector

Services Sunday, October 1st: Sunday school in the hall at 10 a.m. Evensong at 7:30 p.m., in the church.

"WHEN PAW WAS A BOY"

I wish 'at I'd ben here when My paw he was a boy.

There must've been excitement then When my paw was a boy.

In school he always took the prize, He used to lick boys twice his size, I bet folks all had bulging eyes When my paw was a boy.

There was a lot of wonders done When my paw was a boy.

How grandpa must have loved his son When my paw was a boy.

He'd git the coal and chop the wood, An' think up everything he could To always be just sweet an' good When my paw was a boy.

Then everything was in its place, When my paw was a boy.

How he could rattle, jump an' race, When my paw was a boy.

He beat in every game he played, Gee! what a record there was made When my paw was a boy.

I wish 'at I'd ben here, I do, When my paw was a boy.

They'll never be his like again— Paw was the middle boy.

But still last night I heard my paw Raise up his voice and call my paw The worst fool that she never saw— He ought of stayed a boy.

—Author Unknown.

A plan to nationalize certain commodities in Newfoundland, with a proposed expenditure of \$21,000,000 is claimed to be under consideration. The plan, it is claimed, has been arranged by an English-Canadian syndicate. The proposals are claimed to involve nationalization of flour, coal and oil (the latter now controlled by the Imperial Oil company), taking over the Imperial Oil company's obligation of \$2,500,000, building a motor road across the island and constructing a railroad from St. John's to L'Anse-au-Loup, where a cable car shipping port would be established. Period of construction operations would cover five years.

THE PASS SIXTEEN YEARS AGO (The Blairmore Enterprise, 1917)

June 15.—The following pathetic poem was written by an inmate of the Frank Sanatorium: "I tried to hop a moving car; it didn't stop, so here I am!"

Citizens of Canada will be called upon on July 1st to celebrate the fiftieth anniversary of their country's confederation.

Classes in the local school had the following enrolment for the month of May: Grade 1, Miss A. Fulton; teacher, 50; Grades I and II, Miss Foster, teacher, 41; Grades III and IV, Miss Keith, teacher, 44; Grades IV and V, Miss Darrach, teacher, 28; Grades VI and VII, Miss E. M. Fulton, teacher, 42; Grades VIII, IX and X, C. R. Pearson, teacher and principal, 14. Total for the school 229.

June 22.—Private Fred Rapley is reported wounded in action.

Miss Sarah McCollom, of Killam, has accepted a position on the Blairmore teaching staff.

Rev. James Fulton, of Edmonton, has accepted a call to the Central Union church, Blairmore, to be inducted Thursday night next.

The marriage of Miss Elizabeth, eldest daughter of F. S. Kafoury, to Alex. McFegan, secretary of Blairmore Local of the U.M.W. of A., took place on Wednesday of this week at Fernie.

The marriage of Miss Lucy, second daughter of Mr. and Mrs. W. Howe, to Timothy Murphy, of Lethbridge, took place at St. Anne's Catholic church here on Wednesday.

The handsome new altar rails presented to the Anglican church in Blairmore by Mr. A. C. Beach, of Frank, will be in use Sunday next for the first time.

The following Blairmore pupils are writing departmental examinations here this week: Gordon Burns, Frances Gibeau, Elsie Thibodeau, Hugh J. McDonald, Grace Robbins, Blanche Pinkney, Jewel McDonald, Joseph H. Bond, Melville Hunter, Ola May McLaren, Helen Robbins, From Coleman—Elsa Disney, Inez Dunlop, Fred Lees, Earl Price, Helen Morris, Olga Walholm, Fred Antrobus, Mary Jane Lacoste, Louise Price, Gladys Lees, Ed. LeGal and Katie Steele. From Hillcrest—W. H. Stobbs; and from Bellevue, Annie Cawthorne, Florence Hallworth, Beatrice Williams and William Price Williams.

Silver medals awarded by Dr. E. H. Gray for most successful pupils for the year in the Blairmore school were awarded to Harry Hunter, Grace Robbins and Jewel McDonald, in Grades IX, X and XI, respectively.

The Allan liner Carthagenian was sunk in collision with a mine in the Atlantic.

June 29.—The marriage of Bill Eddy, of Beaver Mines, to Miss Isabel Foot, of Clinton, Ontario, was performed by Rev. W. T. Young at Frank on Monday.

Rev. J. B. Francis, first pastor of the Methodist church at Frank, is being transferred from Lethbridge to Camrose.

A ranch in the Medicine Hat district has just changed hands for the sum of \$120,000. The ranch consists of 70,000 acres.

Rev. F. Peters succeeds Rev. A. J. Law as pastor of the Methodist church at Bellevue.

H. Adderley and George Gazzowski ran short of gasoline near Lundbreck Falls yesterday, and were obliged to fry fish to get oil fuel for the car.

Miss Lella Purvis returned from Calgary Monday, and has accepted a position as stenographer in the law office of J. E. Gillis, B.A.

Major Wallace Sharpe, who enlisted with the 138th at Pincher Creek, has won the Croix-de-Guerre for gallantry on the field of battle. Sharpe is a son of Mrs. W. T. Eddy. He was married to Miss Nora Mitchell, of Bellevue, in England last Christmas.

There are two main causes for divorce—matrimony and alimony.

Thanksgiving Day Fares

District News

From Our Own Correspondents

COWLEY HAPPENINGS

Quite a large acreage of fall wheat has been seeded in the district, which is making a fine showing since the recent wet spell.

Michael Elton has been successful in recently trapping two live beavers, which he sent to the provincial zoological gardens at Edmonton. These beavers were caught on Todd Creek, which runs through the Elton ranch.

After paying a visit with her people, Miss Mary McKay has returned to Calgary to spend the winter.

Mrs. Jack Kemmis, of Calgary, is paying a visit to her brother, C. Elton, and family.

The ground here was mantled with a foot of new-fallen snow on Sunday morning, and all the trees were bowed to the earth with the weight of it—a sight seldom seen here. This moisture was saved to the soil, as it melted gradually and soaked in.

Mrs. Robert Littleton entertained the Women's Auxiliary of the Anglican church at her home on Tuesday night.

George Baker made a recent business trip to Calgary.

William Lighthart, of Calgary, was a visitor to the district for a few days the latter part of the week.

ACHING, SWOLLEN FEET

Moone's Emerald Oil Must Do Away With All Soreness, Swelling and Distress Or Your Money Back

Two or three applications of Moone's Emerald Oil and in fifteen minutes the pain and soreness disappears. A few more applications at regular intervals and the swelling reduces.

And best of all any offensive odor is gone for good—It's a wonderful formula—this combination of essential oils with camphor and other antiseptics so marvelous that thousands of bottles are sold annually.

The Blaimore Pharmacy and every good druggist guarantees Moone's Emerald Oil to end your foot troubles or money back.

GENTLEMAN—Sanitary Rubber Goods. Send for catalogue or one dollar for fifteen assorted samples. New kinds. Highest qualifications. Post-paid in plain wrapper same day as order received. National Distributors, Box 449, Regina, Saskatchewan.

BEAUTIFUL MONUMENTS of cedar, from 8 to 16, carved epigraph. Freight paid—Western Wood Monuments, 10880, 75th St. Edmonton, Alberta. Agent wanted.

Livingstone Lodge No. 22, KNIGHTS OF PYTHIAS

Meets in the Castle Hall on the Second and Fourth Fridays of the month at 8 p.m. Visitors are always welcome. Officers: C. C. E. Montalbet; K. of R. & S. B. Sensier.

BLAIMORE LODGE NO. 15, B. P. O. ELKS

Meets Second Tuesday at 8 p.m. in the Lodge Hall. Visitors made welcome. J. R. McLeod, E. L. John A. Kerr, secretary.

Local and General Items

We understand that Mr. Len McDonald of Safeway Stores, Calgary, has been promoted to the management of the fruit department there.

A local cheap-skate noticed by the Winnipeg Free Press that shaves were fifteen cents in Winnipeg. By the next mail he forwarded a money order for that amount.

William McLean, former resident of the Fishburn district, now residing at Rodney, Ontario, is critically ill. His brother, Hon. Archie McLean, of Macleod, has gone east to visit him.

The 42,500-ton Canadian Pacific liner, Empress of Britain, flagship of the company's Atlantic fleet, is scheduled to leave New York on December 23rd on a cruise to the West Indies. Return to New York will be January 3rd, enabling the Empress to sail on her annual round-the-world cruise on January the 4th.

Replying to a letter received from Mayor Knight, asking for further relief grants and clothing, Mr. MacKenzie, relief commissioner, stated definitely that there was no intention to issue clothing at the rate of \$2.40 per month per adult. He was also quite prepared to have an investigation made as to the necessity for a further issue of relief in The Pass, but could give little encouragement of it being increased, unless investigation proved conclusively that such increase is necessary.

Relief camps housing workers engaged in road and landing field work in the Crow's Nest Pass will be supervised by Military District No. 15, if plans recommended by Alberta officials are approved by Ottawa authorities. These camps are at Frank and Coleman. It is stated that the camp at Coleman composed of single unemployed men, working on the emergency landing field, may have to be closed during the severe winter weather, and men from that base will probably be then employed on highway work at Frank.

If Blaimore had a Red school board, here is one regulation they would be required to fulfill. "To cause to be erected and maintained on the school grounds a flagpole with all requisite attachments for raising and lowering a flag, and to furnish a flag, which SHALL be the British Union Jack, to be not less than four feet wide, and not less than two feet long, and to cause the said flag to be displayed from such flagpole upon all such days as may be prescribed by regulation, and when not so displayed, to be hung upon the wall inside a schoolroom."

Mr. and Mrs. J. Mackie were Lethbridge visitors on Saturday.

Mr. and Mrs. L. Tesolin and family motored to Lethbridge last week.

Miss J. Swinney has been visiting relatives at Fishburn.

TABLET UNVEILED

AT CHARLOTTETOWN

Charlottetown, P. E. I., September 20.—A stormy day eighty-one years ago, when oxen and horses dragged ashore the Prince Edward Island end of the first submarine cable in America, was described here today as Chief Justice J. A. Matheson unveiled a tablet commemorating the historic event.

The cable was laid by Frederick Newton Gisborne on November 22, 1852, from Cape Tormentine, New Brunswick, to Carleton, Prince Edward Island, a distance of nine miles. The steamer carrying the line across the angry Northumberland Strait could not get within a mile of the Carleton shore, and the feat was accomplished with great difficulty by means of a kedge anchor and the united strength of eight animals.

Donated by the Historic Sites and Monuments Board of Canada, the tablet was placed on the outside of the provincial building within which the first conference looking toward the confederation of Canadian provinces was held in 1864. Here today the achievement of Gisborne was acclaimed by a distinguished gathering presided over by Professor D. C. Harvey, M.A., of Halifax, a native of Prince Edward Island, architect of Nova Scotia and a member of the board.

E. W. Beatty, K.C., chairman and president of the Canadian Pacific Railway, was appointed to the position of vice-president of the Consolidated Mining & Smelting Company of Canada at a special meeting of the directors of that company recently.

Local and General Items

The young husband of a local newlywed asked his dear young wife for soft-boiled eggs for breakfast. She scoured the country in search of rain water.

A Pass doctor says that alcohol and sunshine give a person the same stimulation. To which Val replied: "I know, doc, but it's hard to get sunshine at 1 a.m."

The reason why J. P. Morgan (who it is claimed controls one-fourth of the total wealth of America) paid income taxes in Britain and paid none in the United States is that the laws in the United States were made so that he could get out of paying them. What do you suppose favor lists are for, anyway?—Ex.

In Vancouver, they told us one could get a liquor permit for twenty-five cents, as against Mr. Dinning's annual admission fee of \$2.00 to his vendor shops. Then, they also told us that one could take bottle beer from the beer parlors without a permit. And then we thought we were so up-to-date in Alberta, "spiritually" speaking.—Editor Drumheller Review.

During the battle the officer on the extreme right sent the message to the officer on the extreme left: "Send reinforcements. We are going to advance." Slowly the message passed from mouth to mouth, and as is not uncommon, its wording became slightly altered. The officer on the left was extremely puzzled to hear: "Send three and fourpence. We are going to a dance."

Bill Cameron, well known and popular citizen of Cranbrook, one time offered a costly consolation prize for curlers. He has got to realize, however, that far too many are qualified winners, and the average curler's ability provides a wide scope for judges to judge between. The same situation no doubt obtains in connection with golf or any other sport where other than real ability is very much to blame.

An Editor needs a hide as thick as a hippopotamus to stand all the jabs he gets, and if he happens to be the least bit "thin-skinned" he goes about in fear and trembling, feeling like a hunted animal in an African jungle. They have "Be Kind to Animals" weeks and all sorts of other "Be Kind" weeks, but never a "Be Kind to the Editor Week." Not that we chaps need any special concessions over the other fellow, but we do want a chance to get things right. Give us that chance by inviting your local news-writers to your meetings.—Drumheller Mail.

There has come to light in Jemseg, Queens County, New Brunswick, the original deed to the family estate of President Franklin Roosevelt of the United States, "Krum Elbow", granted to Joshua Gedney by George II. in the year 1760. This Joshua Gedney owned much land in New York, but, siding with the Loyalists during the American revolution, and himself raising a regiment, his property was confiscated, and after the revolution he came to New Brunswick to live, locating at Jemseg. The deed is in the possession of a great-grandson, Fred C. Nevins, of Jemseg.

"A boy fell into a river and was in danger of drowning. A passing motorist heard his cries and plunged in to the rescue, ruining a fine suit in the process. The boy, on recovering, with a sense of gratitude asked the motorist's name, so that his father might adequately thank him. 'Tut, tut, my boy, it's nothing,' the motorist protested, but the boy being persistent, he gave his name and the hotel to which he was going. Sure enough, the father turned up later in the day, dressed up for the occasion, and overwhelmed the motorist with his thanks. The motorist smiled his appreciation and held out his hand to the grateful father. 'It was a fine thing you did,' the latter exclaimed, and halting, he added, 'but what did ye dae wi' the boy's bonnet?'"

THE KINGDOM OF IRAQ

In the kingdom of Iraq, much in the public eye lately on account of the reputed attack on native Assyrians and the death of its king, Feisal, agriculture is in a very primitive state. Plowing is still done by a piece of wood with a sharpened point. Tractor plowing is being used to some extent, but development in this is handicapped by the want of knowledge of mechanics. The staple winter crops are wheat and barley, and, in summer, cotton, maize, sorghum and rice. It is also one of the chief date producing countries of the world and the date is the staple export crop. It is here in Mesopotamia that the history of mankind was laid in biblical lore, and then, as now, the country was entirely dependent upon irrigation. All through the days of ancient history the system of irrigation canals, which had been built up from ancient times, remained entirely intact until devastated by the Mongols some five or six hundred years ago. Following the Great War, pumps have come into use for the lifting of water, and at present about one million acres of land are irrigated in this way. The great oil deposits of Iraq should prove a great stimulus to this form of irrigation on account of cheap fuel. Iraq for some time after the war was a mandatory possession of Great Britain and she still exercises a certain amount of control over the area.

When Myles Tompkins was asked what he was writing, he replied, "A joke."
Jimmy: "Well, give her my regards."

OCCASIONAL WIFE
By EDNA ROBB WEBSTER
Author of "Joretta," "Lipstick Girl," Etc.

SYNOPSIS

Camilla Hoyt, young and beautiful, falls in love with Peter Anson, fellow student in an art school. She is the adopted daughter of a wealthy family, and he is a poor, struggling sculptor. On their first date Peter spends most of his money to show Camilla a good time, and then decides he must give her up because he can't stand the financial place. A chance meeting, however, paves the way for another date. This time they walk in the park. Camilla tells Peter that she is not rich; or, at least, will not inherit the Hoyt fortune. Peter in turn confesses he is practically penniless. They fall into each other's arms. Together, in their hearts, Peter and Camilla try to arrive at some plan for the future. Mrs. Hoyt, Camilla's mother, suspects from Camilla's actions that a romance is brewing. She is anxious to see Camilla wed wealthy.

(Now Go On With The Story)

CHAPTER X.

It was not long after Camilla knew that "Pa" Lorenz was her father that he had been killed in an accident at the foundry, thus taking him out of her life almost as soon as he had entered it. The industrial insurance had saved the family's humble home and with three or four of the children working all the time and living at home, Mrs. Lorenz managed a thrifty existence.

She rather elated in her newly acquired authority and independence, only partially assumed by young Henry, who had taken his father's place in the shop. He was a sub-foreman now, and more powerful than his father had been. He carried none of his antagonism and resentment of inferiority. He was the readjusted young American. The Lorenzes lived in a section built up of thirty laboring home owners, where women who had toiled mercilessly in European fields now used electric washers and vacuum cleaners, and found time to chat over back fences and linger for delicious bits of gossip on the street and from the market.

Their faces grew brighter and their accents less pronounced, as their clothes grew more shapely and their clothes less shabby. Patches of lawn and clipped hedges added dignity to the rows of frame houses that had been built from one blue-print, while flowers and vegetables flourished in the back yards for beauty and economy. Pungent, spicy odors were wafted from open doors and windows to the four winds, and children laughed and cried and played ball in the streets.

Such was the environment that Camilla learned was hers by right of birth; but however hard she might try, she knew that she never could adopt it for her own again. There were times when she wished devoutly that she had not been selected from that wilderness as a rare flower, to be transplanted in the sheltered atmosphere of the conservatory. But her studies at National had dismasted that notion, and her meeting with Peter had totally dismasted it. That was why her sudden change of attitude around Mrs. Hoyt's curiosity as to the cause.

No opportunity to follow up her suspicions escaped her vigilant eye. She went into Camilla's rooms often after dinner, especially if Camilla were dressing to go out anywhere.

for CORNS & WARTS
Remove dry skin. Dab on Minard's time daily. Let dry on. After a while Corns and Warts will lift right off.

MINARD'S
"KING OF PAIN"
OINTMENT

W. N. II. 201

Such circumstances inspire women's confidences. She displayed a growing interest in seeing that Camilla looked just right.

"You seem to be happier of late," she suggested pleasantly, one evening.

"Am I?" asked Camilla. "Yes, perhaps I am. School will be out soon."

"Are you so tired of studying?" she hoped.

"Oh, no. Just anxious for September and the beginning of a new world," she replied easily, letting a cloud of rose-tinted suede lace fall over her head and shimmer into folds around her mesh-clad ankles.

For one thing, Camilla rejoiced in spite of her resentment over her false position as Camilla Hoyt—that her wealth provided her with beautiful clothes just now when she wished to appear her loveliest in Peter's eyes.

Of course, he would love her just the same if she wore rags—or a shawl—she told herself. Every woman believes in that supposition, but she never dares to put it to the test.

A misplaced rock of hair, a shiny nose, an unbecoming gown—she lives in a continual dread of her lover's discovery of these marks to whatever beauty is hers.

"May I ask where you are going this evening?" Mrs. Hoyt continued casually.

"The art school classes are having a dance in the auditorium."

"Oh! Is someone taking you?"

"One of the students," Camilla replied lightly, but her heart beat furiously at the mere thought of Peter. "Do I know him?" Family introductions and long acquaintances were of paramount importance in Mrs. Hoyt's social world.

"I don't think so. His name is Anson—a senior."

"Queer name, it sounds—Swedish."

"Is it? I suppose it is. All I know is that he is one of the honor students."

"We're walking—it's only across the park."

"Is his family—er—prominent?" Camilla knew that was the next item on the questionnaire.

"You mean, has he money? I don't know. It makes no difference whether he has or not, at a school dance. Class dues pay the expenses." She knew what Amelia Hoyt implied, but she maintained a guileless innocence.

Mrs. Hoyt changed her attack. "From the way you are dressing, I thought you were going somewhere important. That is a new frock."

"Yes, do you mind my wearing it?" sweetly.

"No, indeed. You look very lovely, my dear," she assured her hastily. "I should like to meet your friend when he calls for you."

Camilla thought, "She will have to meet him sometime. I can't see him all summer and prevent it. She might even like Peter. I don't see how she could help herself." Aloud she replied, "If you wish."

Peter looked his best in evening clothes, as all handsome men do and all plain men do not. Camilla was delighted that Mrs. Hoyt seemed to be impressed favorably with him. Of course, her attitude could make little difference in their lives. So far as Camilla was concerned, Mrs. Hoyt had nothing to do with their future. Her own plans had provided for that. Only her approval of Peter would make the summer less difficult when she discovered that Camilla was seeing him often. She would dominate Camilla until the day she left her house, however, independent she might try to be.

"Camilla tells me you are one of the best students at National," Mrs. Hoyt began in the subtle manner which Camilla had learned was the first item in the long questionnaire

DRAPERIES MADE NEW

"When we resumed housekeeping a month ago I found my draperies had become creased from packing. I hung them out on the line, hoping to remove the creases. Then I forgot them. The result was they became badly faded and sun-spotted."

"I was heartless until the happy thought struck me to dye them. I just dyed them a deeper green, and as I used Diamond Dyes they look gorgeous and new. I have never seen easier dyes to use than Diamond Dyes. They give the most beautiful colors—when used either for tinting or dyeing—and never take the life out of cloth as other dyes do."

MRS. J.F.T. Montreal.

of character, history, ancestry, social status and financial ratings.

Peter was modest. "That may be, but Miss Hoyt only tells nice things about everyone."

"Oh, have you known her for long?"

"Only since I went into Professor Drake's class as a critic."

"A critic?"

"Yes, I had taken his work two years ago. I wanted to find out if I had improved any," his smile was charming, and included Camilla.

She moved toward the hall anxious to escape the rest of the list of questions. "We are late, now, Mr. Anson. I think we had better be going."

Mrs. Hoyt followed them to the door. "Your car—where is it?" She exclaimed with alarm, as if she thought it must have been stolen, when she saw none waiting outside.

"We're walking. It's only across the park," said Camilla, "and Mr. Anson lives near. I insisted that he shouldn't bring a car."

"That's ridiculous, Camilla," she turned to Peter. "You must not humor her queer notions, Mr. Anson."

"I like the walk myself," Peter defended her, bowing a courteous good-

Making Liners Cooler

Canard Company Finds White Paint Reduces Temperature Many Degrees

The Canard Line has announced that the "Mauretania" had been so well received as an all-white cruising liner that they have decided to paint the liner "Francia" white before the beginning of her world cruise next January.

H. P. Borer, general passenger manager of the line, said that engineers of the "Mauretania" had reported to him on a series of scientific observations taken on the "Mauretania" during cruises to the West Indies. They took similar readings last year on identical cruises and have reported that the liner is from seven to nine degrees cooler in her white dress.

"I didn't believe it at first," Borer said, "and thought it as just a stunt. But they produced the figures and scientific data to show that a white ship must be cooler than a black one. So I capitulated."

The "Mauretania" still one of the swiftest liners afloat despite her age of more than a quarter of a century, has proved popular in the cruises trade. On September 27 the ship will be sent to England for a month for reconditioning. In November the liner will be back again for a series of cruises to last until April.

THE RHYMING OPTIMIST

By Aline Michaelis

THE FADED TAPESTRY

Her life is like a faded tapestry Whose colors have grown paler with every one-time vivid flower and shadow, only dim and vague, appears.

Day after day has shed its rays And the carresses of those golden beams

A part of sapphire, rose and jade have won;

The picture now as pale as moonlight gleams.

A faded tapestry, which takes from time An added beauty as the seasons go;

So softened, rendered mystic and sublime With lovelessness no crude, new thing can show.

We see her life grown fairer at the end, Whisked glances years, and years alone, can lend.

Some Cures For Insomnia

Plenty Of Recipes Given From Which To Choose

Sleepless nights? Try these favorite recipes from all over the world for winning the favors of Morpheus: Count the number of people you know.

Plug your ears with cotton. Recite Keats' "Ode to Sleep."

Read the Bible. Try to recall a previous dream and "think" yourself back into it.

Double figures—twice one, twice two, twice three, and so on. If sleep does not come, you are said to find it easy to reach 16,777,216 when the combinations of seven lifts the brain.

Play an imaginary game of golf or billiards.

Place a pad of lint or rag, wrung out in hot water, on the pulse of the left wrist, then bind it with a handkerchief.

Munch a hard crust. And sleep with the head to the north, "in line with the earth's magnetic currents."

Has Slim Chance Now

If Motor Cars Speeded Up Pedestrian Will Have Hard Time

The pedestrian has a hard enough time as it is; he must hop quickly with a car coming dead at him at 40 miles per hour; if the speed of the car were stepped up to 125 miles per hour he would have no chance whatever. If he stood still he would be struck so hard that identification would be difficult. If it jumped with sufficient agility to escape he would have to strain his back and injure his arches for life. The extent of the jump which he makes today would be a futile gesture. The leap which would deliver him from a car speeding at 40 miles per hour would be of no use whatever when pitted as a safety measure against one speeding 125 miles an hour.

Won His Bet

The people who work on one of the tobacco farms in Ontario got a surprise by seeing a young man drink five pounds of extracted honey in 15 minutes. He won the bet; the bet being if he drank the five pounds in 15 minutes the owner was to give him 25 pounds. If the young gentleman could not drink the honey in the time set he was to pay for the five pounds.

Longest Lived Trees

Older than the pyramids or sphinx of Egypt—Older than the first city built by man—Many of the "Big Trees" of California may have been seedlings when Adam walked the earth. English Oaks are also noted for their long life—trees are now standing which were large enough to cut for lumber when the mailed Knights of William the Conqueror landed in the year 1066.

EVEREADY LONGEST LIVED RADIO BATTERIES

It's long life that saves money on battery upkeep. You get longer life from Eveready Batteries because they are crammed full of power-producing material. No waste space in the flat layers. Every inch works for you. If buying a new set, ask about the new Air-Cell radios which are specially designed for homes without electricity. No recharging necessary with Eveready Air-Cell "A" Batteries.

Biologists Discover New Growth-Promoting Acid

"Pantothentic" Is Name Given Most Universal Stimulant Ever Found
An article by Howard W. Blakeford, AP Science Editor, says the most universal stimulant ever found, a growth-promoting acid, was under discussion by American Chemical Society Biologists. Even its name, "pantothentic acid," was new to most of them. Its discovery was reported by Dr. Roger J. Williams and Carl M. Lyman, of Oregon Agricultural College, who said they named it from the Greek meaning "from everywhere," because that described exactly where they found it.

They said it was a "constituent of all living things." They found it in humans, worms, plant molds, oysters, bacteria, algae and milk. "It is probably safe to say," they stated, "that it is more widely distributed in nature than any known physiologically potent substance. It is apparently a single acid substance."

Although they have not yet succeeded in getting rid of all the impurities, their last extract, taken from liver, is so potent that a single drop of the size of a pin head speeds up the growth of yeast in 250 gallons of liquid.

Their experiments indicate that it is composed of long chains of carbon, hydrogen and oxygen. Neither sulphur nor nitrogen has been found in it, or any of the common combinations of carbon and hydrogen forming sugar. In strength it falls between acetic and lactic acids. Yet one part in a billion appears sufficient to affect growth.

The biologists, they stated that it probably is a catalyst, one of these minute chemical substances whose presence causes great chemical changes without the catalyst being affected in the slightest.

Good Motto To Adopt

Eastern Truck Company Forbids Employees To Hog Road

Printed on one large transport in Eastern Canada are words: "Our motto is courtesy. If this truck hogs the road, notify this company." Many people with every transport and bus company would not only adopt but practice this motto. The way many of the drivers of large transports and busses hog the centre of the road is dangerous to some extent, and those in authority should make an example of some of them in an endeavour to show that the business or pleasure car has some rights on our highways.

New Fire Escape

A new life-saving device which can be attached to any window, has been invented in Germany and was tested recently in Berlin. Two ropes are thrown to the ground, where passers-by catch them and control the descent of the escaping person. In the test a man and a girl descended from a skyscraper.

Flamingoes in North Africa are building nests, some of which are conical structures rising two feet above the water level.

More than 30 per cent. of the people now in insurable employment in Britain are women.

Little Helps For This Week

"If we love one another God dwells in us, and His love is perfected in us"—1 John 4:12.
—And he that keepeth His commandments dwelleth in Him, and He in him. And hereby we know He abideth in us by the Spirit He hath given us.—1 John 3:24.

Abide in me, O' shadow by Thy love Cast half-formed passion and dark thought of sin; Quench ere it rise each selfish, low desire, And keep my soul as Thine, calm and divine.

The spirit of love must speak the words and work the works of love. It cannot exist and give no sign, or a false sign. It cannot be a spirit of love, and mantle into irritability and selfish impatience. It cannot be a spirit of love, and at the same time make self the prominent object. It cannot rejoice to lend itself to the happiness of others and at the same time be seeking its own. It cannot be generous, and envious. It must be sympathizing, and unselfish, self-forgetful and vain-glorious. It cannot delight in the rectitude and purity of other hearts, and yet unnecessarily suspect them.—J. H. Thom.

Changed Into Land Animals

Royal College Of Surgeons Experimented With Mexican Fish

Fish have been changed into land animals by members of the Royal College of Surgeons, in London, England.

The fish selected for the experiment were Mexican salamanders, which normally spend their lives in water. They were fed with thyroid glands and a month later the gills and tail fin had completely disappeared, eyelids developed—and the salamanders struggled from their tank on to the shore.

IT'S LIVER THAT MAKES YOU FEEL SO WRETCHED

Wake up your Liver! For you to feel healthy and happy, your liver must pour two pounds of liquid bile into your bowels, every day. Without this bile, trouble starts. Poor digestion. Slow elimination. Pimples in the body. General weakness. How can you expect to clear up a situation like this, surrounded with more liver-acting pills, mineral water, laxative pills, or any of the lot? They don't work. See how Carter's Little Liver Pills. Purely vegetable. Get them by name. Refuse substitutes. 25¢ at all druggists.

BLAIRMORE Phone 105**Local and General Items**

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, etc. Phone items in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

Colin McDonald has returned from a trip as far west as Vancouver.

Tony Vejprava will likely teach Lethbridge hockey this coming winter.

In Connecticut, all persons sitting in public places shall be at least six inches apart.

A regular meeting of the Blairmore Board of School Trustees will be held tonight.

A petition is being circulated and largely signed, asking that local relief affairs be investigated.

Troubles in Edmonton are nothing worth worrying about. Women down here are reported "up in arms" also.

Thomas Hughes, of Beaver Mines, left this week on a business trip to Montreal and other eastern Canadian cities.

Marguerite, small daughter of Mr. and Mrs. Mike Moxin, of the Oxford hotel, High River, is seriously ill in hospital.

It is very interesting to note that the average advocate for shorter work hours doesn't want to work at all.

Miss Margaret Stewart, nurse, daughter of Mr. and Mrs. James Stewart, of Blairmore, underwent an operation at the Coleman hospital on Monday.

The Enterprise subscription premium plates are being delivered this week. Parties who have received them state they are dandies and well worth a dollar.

Mr. and Mrs. S. Trono and daughter Beatrice, accompanied by Miss M. Chardon, motored to Calgary on Sunday, where Miss Trono enters upon a course in advanced music.

Since a mission box, asking that one cent be deposited for each meal, was left at the home of a local wealthy individual, he has decided to go to restaurants and hotels for meals, rather than donate that cent for missions.

Mr. Bert Farmer was in town on Monday, arranging for the appearance of Mart Kenney and his music at a dance to be given in the Columbus hall tonight. The Kenney orchestra have won considerable popularity, and no doubt will be well received tonight.

The women meant boxing when they attended the boxing exhibition at Coleman last Saturday. Monday evening, a well known benedict, who took no part in the bouts at the Coleman arena, was seen on the street with his hat drawn down to cover the left eye.

The secretary of the ladies' aid society in a neighboring town entered a bank there and deposited some of the society's money, remarking that it was "aid money." The cashier thought she said "egg money" and said: "The old hens did pretty well the past month, didn't they?" It became so chilly in the bank that the burglar-proof glass cracked.

All of the Canadian wheat imported into Japan is not used in the homes of the Japanese. During 1932, ten million bushels of wheat were manufactured into flour in Japan for re-export to China and other eastern countries that are also becoming larger users of wheat products. Generally, flour milling companies in Japan use foreign wheat during the first half of the year and domestic wheat during the second half. Owing to the high protein content and excellent milling qualities of Canadian wheat, the Japanese use it as a standard mixing substance with the softer wheats of Australia and other countries from which Japan draws her supplies.

W. Fisher is spending part of his annual vacation in Calgary.

S. S. Savage is expected to oppose Andy Davison for the mayoralty of Calgary.

You cannot tell anything about the speed of an automobile from the noise it makes.

In Portland, Maine, it is illegal to tickle a girl under the chin with a feather duster.

Roland Crayford, of Lundbreck, is visiting friends and relatives here for a few days.

Mrs. W. K. Hyslop left Pincher Creek last week for Creston, where she plans on making her home.

Const. Elmer McDougall, who recently re-entered the R.C.M.P., has been transferred from Lethbridge to Regina.

In Turkey, a woman never sees her husband before marriage. In America she doesn't see much of him afterwards.

The congregation of First United church, Truro, Nova Scotia, recently celebrated the 163rd anniversary of the organization of the congregation.

Mr. and Mrs. H. T. Halliwell returned to Coleman Monday from Vancouver, where they attended the Weekly Press Association convention.

High River Elks have concluded their carnival, for which they confined ninety-five per cent of their expenditures to local trade. That's the system!

The death of Mrs. Burt occurred near New Glasgow, N.S., recently. She was a sister of the late J. J. Purvis, of Blairmore, and George Purvis, Merritt, B.C.

The Corbin-Bellevue feature of the Crahan cup series in football, which was called off on Sunday on account of the heavy snowfall, will be played at Corbin tomorrow, Friday.

The members of Kootenay Encampment, I.O.O.F., Michel and Natal, have decided to stage dances every Saturday night in their new hall at Natal, commencing Saturday, October the 7th. The Knights of Rhythm orchestra has been engaged. Dancing from 8.30 p.m.

His Worship the mayor, Bill Knight, is appealing to the Alberta relief commission for clothes allowances for Blairmore's unemployed. And it would be very interesting to that commission to see just how well some of them are dressed. No doubt, the commissioners know how to entertain Bill Knight's appeal.

One can scarcely figure out why Councillor Morgan should undertake to propose to place a license tax against local business people, who are all heavier tax payers than himself and can far less afford it. Morgan could easily figure out, judging from what business the local merchants receive from himself and others, just how much money merchants are making today.

A report just issued from the Department of State at Washington gives figures which should delight patriotic Canadians. The number of persons who emigrated from Canada to the United States during the fiscal year just ended, was only 4,523—a decrease of 91 per cent from the figures for 1929, which showed an exodus of 51,498. The Department credits the drop on the enforcement of the provision of the immigration act barring those "likely to become a public charge," but the cause must be sought elsewhere. The vast majority of those who have emigrated in past years have proved themselves to be assets rather than liabilities.

F. O. McKenna, Pincher Creek barber, was in town on Friday last.

Dr. J. S. Hynes, of Claresholm, is visiting his old home in Kensington, P.E.I.

A husband is one who stands by you in troubles you wouldn't have had if you hadn't married him.

The Dominion bureau of statistics estimates that 216,000 Canadians have been reinstated in employment since April the 1st.

Mrs. Wilson, wife of W. R. Wilson, president and managing director of the Crows' Nest Pass Coal Company, passed away at Vancouver on Tuesday night of last week, aged seventy-six.

Some local guy went hunting in the district south of Pincher Creek. One of the trophies of the day puzzled him as to its classification, so he sent the thing to a friend in Edmonton to be given a berth in the provincial zoo. It has been berthed and tagged "Mud Hen."

Mr. and Mrs. J. R. Gresham arrived here last week from Okotoks. Mr. Gresham is relieving Collector Bond at the local customs office, where he will preside for a period of three weeks. They are staying with the former's parents, Magistrate and Mrs. J. W. Gresham.
